SUBJECT : Presentation to Colloquium

1. I request approval to make a presentation to a colloquium on Soviet and East European Affairs to be held on 24 October 1978 at George Washington University. I have been invited to speak on the political-strategic framework for Soviet oceanic policy. This would be an unclassified presentation, based on a chapter I prepared for a Congressional volume on Soviet oceanic policy and developments which was published before I joined the Agency. (The volume was put together by the Congressional Research Service for the relevant Congressional Committee; my chapter is available for reading should you be interested in doing so.)

2. The colloquia are part of the regular academic activities of the Washington university community in which I have participated since the mid-60's. They are sponsored by the Sino-Soviet Institute of George Washington University and involve faculty participants from the Washington area universities (Maryland, George Washington, Georgetown, Catholic, and American) and other area specialists. These sessions have featured both faculty and outside speakers from academia, industry, and other government agencies.
